Postgraduate Diploma in Tax Management

Course Outline

PROGRAM OVERVIEW

Postgraduate Diploma in Tax Management at the AIUB Institute of Continuing Education is a program meticulously designed for professionals aiming to deepen their expertise in the field of taxation. As the global economic landscape evolves, the complexity of tax systems increases, necessitating skilled individuals who can navigate these challenges effectively. This program offers a comprehensive exploration of tax principles, regulations, and strategic tax planning, both locally and internationally. It is crafted to enhance your analytical capabilities, improve your strategic thinking, and equip you with the latest technological skills essential for the modern tax professional. Whether you are looking to advance in your current career or pivot to a role requiring specialized tax knowledge, this diploma will provide you with a robust foundation in tax management, ethical practices, and compliance.

Our curriculum is designed not only to provide theoretical knowledge but also to offer practical skills through real-world applications, case studies, and interactive learning experiences. By the end of this program, you will be prepared to handle complex tax-related decisions, lead compliance efforts, and contribute to strategic planning at a high level.

PROGRAM OUTCOMES

Once the course is successfully completed, the students will be able to:

- Comprehensive understanding of the legal system and statutory interpretation related to taxation.
- Profound knowledge of fundamental tax principles and concepts.
- Sound understanding of accounting principles and their application in tax management.
- Proficiency in handling individual taxation matters, including tax calculations, deductions, and exemptions.
- In-depth knowledge of corporate taxation, including tax planning and compliance for businesses.
- Expertise in Value Added Tax (VAT) and Customs regulations, including their application in domestic and international contexts.
- Familiarity with the business laws of Bangladesh and their implications for taxation.
- Ability to perform accounting tasks specific to taxation, including tax accounting, auditing, and reporting.
- Understanding of international taxation practices, including tax treaties, transfer pricing, and global tax strategies.
- Comparative analysis of different tax systems to identify their strengths, weaknesses, and implications for businesses and individuals.
